TB18 news presents noon today with Sue Hackett and Peter Stoner, a 30 minute report of local and national news, sports, weather and special interest information.

00:00:35

President Nixon names both a new special Watergate prosecutor and a new attorney general's White House and Secret Service technicians to Judge John Sarika's court to testify about two key Watergate tapes and key airlines drastically cut flight schedules due to the fuel shortage.

00:00:54

Are being held in the slaying of a Lawrenceburg restaurant.

00:00:57

Operator and the abduction of his wife and a waitress, Alexon family of three tied and robbed by men and personating police officers and a spot check in Louisville Supermarkets and six other major cities find ground beef supplies contaminated by bacteria. The tales of these stories are coming up on noon today.

00:01:18

Introducing the three spoon test, can you tell me what's in these three spoons? Which one would you pick? Is the richest looking bobber? Uh-huh. Why?

00:01:22

Yeah. Call Kate.

00:01:26

The one in the middle, the darkest.

00:01:29

It got shiny things in it like crystal.

00:01:32

You picked Folgers coffee crystals because of the way it looked, but the important thing is the taste, right?

00:01:39

Doesn't taste as rich as it looks.

00:01:41

It tastes as rich as it looks.

00:01:43

Bolger's crystals. It tastes as rich as it looks.

00:01:54

Think the American family is going down the drain?

00:01:59

If you do, you're dead wrong.

00:02:03

Because too many people know how important the family is, like the millions who belong to the PTA, working on all levels to strengthen American family life. Call your nearest school and join the PTA people taking action.

Lexington Metro Police report that a family of three was found tied in robbed after 7 hours. The victims were 66 year old Ben Charbert of 1405 California Park, and his 64 year old wife Freda and her sister, 45 year old Ruth Kirschbaum of 137.

00:02:39

Malibu Dr. Mrs. Schwarberg told metro police that about 8:00 last night, two men came to their home on California Park and said they were police officers. The men then pulled automatic weapons and forced their way into the house.

00:02:53

Once inside, the thugs tied up Mr. and Mrs. Charbert with electric cord and neckties and forced them into a front bedroom. Mr. Scharnberg said that the managed to get free about 2:45 this morning and called police. The house was ransacked in an undetermined amount of money and jewellery was taken. The share burgs and missus Kirschbaum were taken to Good Samaritan.

00:03:14

Hospital for observation and released as unharmed.

00:03:18

The share burgs described the robbers as in their early 30s. One was short, the other tall, both men white, put on ski masks once they were inside the house. California Park is located just north of Mount Tabor Rd.

00:03:33

Two suspects are being held this morning in Bell County in the slaying of Lawrenceburg restaurant operator William Black, Black's wife and a waitress who are abducted were released unharmed at Pineville. Police say that 23 year old James Noah Dunne and his 18 year old brother-in-law, Jack Lee Allen, were arrested in the Southeast Kentucky.

00:03:53

Community of Path fork.

00:03:55

55 year old Nancy Black and 34 year old Mrs. Carol Apolis told police that the two men forced them into a pickup truck after the shooting and drove them to Pineville after the men

let them out and threatened their lives that they went to authorities, the women boarded a bus and did not notify police until they reached Lexington.

The attorney General's office says the candidates in the Commission race and the race for the mayorship of Lexington may designate challengers and inspectors at each polling place in next Tuesday's election. Assistant Attorney General Walter Herdman commented that these two races are run on a nonpartisan basis, but he said that they still fall under that general state law, allowing candidates to name.

00:04:39

Challengers and inspectors at the polling places his opinion came in response to a question raised by JE Reeves of Lexington, whose coordinator of the group known As for for.

00:04:48

Regrets.

00:04:49

A national consumer publication says that a spot check of ground beef bought in supermarkets and seven major U.S. cities last month found that the meat was often contaminated. Media and Consumer magazine says that meat was often contaminated by fecal bacteria. The magazine says that its spot check was conducted in Chicago.

00:05:10

San Francisco, Philadelphia, Boston, Louisville, KY, St. Petersburg, FL and Dayton, OH, it concluded that the consumer has no present assurance that the ground beef he is purchasing is free of disease producing organisms.

00:05:25

The Louisville Courier Journal says in the copyrighted story today that it had tests done by a private laboratory on samples of the lowest priced ground beef purchased in one day at 10 stores representing the area's five largest supermarket chains. The Courier says that the Kentucky Testing Laboratory found significant amounts of a bacteria.

00:05:47

In all the samples that indicates fecal contamination of the meat, the bacteria can produce meat spoilage, and has been reported to have caused food poisoning.

00:05:58

A key witness has now pled guilty to false testimony and the threatening a witness in the recent Lexington murder trial of two men accused in the death of mentally \*\*\*\*\* Carolyn Williams. Fayette Circuit Judge Lt. Grant sentenced the woman, Mary Smith. The two consecutive one year prison term. She told the quarterly court last April that the two men, Melvin Lee Brown and James.

00:06:18

Williams were responsible for the beating death of Miss Williams, who wandered away from a special school here in Lexington. But during the men's trial, Miss Williams retracted that statement, and another witness at that trial, the Loris White, said that Miss Williams had threatened her about her testimony.

00:06:32

Rowan County Sheriff Carl Jones says that he's puzzled and surprised by a federal indictment against him. Jones, his wife and Annabel, and four others will be arraigned November 12th in US District Court at Catlettsburg. The bill returned against them charges illegally interfering with delivery and mailing of absentee ballots.

00:08:18

President Nixon this morning named both a new special Watergate prosecutor and a new attorney general, both of whom must now win congressional confirmation. The prosecutor designated as Houston, TX lawyer, and Leon Jaworski, a Democrat and a former president of the American Bar Association.

00:08:37

President Nixon pledged not to discharge Jaworski as he did Archibald Cox without first obtaining consent of House and Senate Republican and Democratic leaders and top members of the judiciary committees.

00:08:49

The new attorney General, if confirmed, will be Republican Senator William Saxby from Ohio. Sue has more on.

00:08:56

That Saxby, who just a week or so ago announced that he was utterly disenchanted with the tensions of Washington, living both political and personal and was giving up thoughts of running for a second term to return to Ohio and private law practice, apparently.

00:09:10

Couldn't resist the tempting lure of one of the nation's highest positions, even though it means much more than Washington merry.

00:09:16

Brown Zaxby's criticisms of Mr. Nixon, now apparently forgiven by the White House, were often very sharp. For instance, he once termed the president's position in the Watergate scandal as that of a man playing a piano downstairs in a House of ill repute, who claims that he doesn't know what's going on upstairs. For more on the appointment, here's Tom Brokaw.

00:09:37

Senator Saxby has been very critical of President Nixon on several occasions in the past. For instance, during the December bombing raids of North Vietnam, the Ohio Republican suggested in his words that the President had taken leave of his senses. Those criticisms came up during the Senators 90 minute talk with President Nixon.

00:09:56

I said well that.

00:09:58

He'd have to take me, warts and all, because I have been outspoken, but I certainly it doesn't reduce my ability to to work and cooperate with the President.

00:10:14

As for Watergate, Saxby said he questioned the president about several aspects of the scandal.

00:10:20

And he is convinced the president acted proper.

00:10:23

Senator Saxby said that if he becomes attorney general, he would not let a special Watergate prosecutor go on what Saxby called a fishing expedition for presidential documents. Saxby said he would determine if the special prosecutor had sufficient reason to ask for other presidential papers. Tom Brokaw, NBC News at the White House.

00:10:43

The White House is sending Secret Service technicians into federal judge John Sarika's court today to testify about the two key Watergate tapes that administration attorneys say never existed.

00:10:56

The Senate investigating committee had felt that the transcripts of a phone conversation between Mr. Nixon and former Attorney General John Mitchell just a few days after the Watergate break in and another of a meeting with the ousted White House counsel John Dean two weeks prior to his ouster by the president, would shed great light on the question of whether.

00:11:16

Mr. Nixon knew about the espionage during the long court and Hot court battle that the White House never indicated that the conversations had not been recorded.

00:11:26

For more on that Senate reaction to the bombshell announcement, here's NBC's Robert McCormack.

00:11:34

Most members of Congress were in for cover at the announcement of the missing tapes, they said privately and for that matter, publicly, that they didn't understand and wouldn't comment until they did, Watergate committee chairman Irvin and Republican Committee member Waker set the tone.

00:11:49

And I have to exercise so a great deal of restraint.

00:11:54

Great.

00:11:54

Yeah.

00:11:55

So.

00:11:56

Well, I can exercise a regular strength with a very small law expenditure of energy on this.

00:12:02

I take everybody's statements at face value until proven otherwise.

00:12:06

What do you think the public's going to?

00:12:08

Think about this.

00:12:11

I think it'll probably heighten their suspicion, but I just would ask them to go ahead and hold back until we.

00:12:15

Try to pin it down a little bit more later, as supposedly secret high-powered conference was held in the office of the Republican leaders. Scott among those present were presidential assistants General Haig.

00:12:26

Owen Laird and Bryce Harlow.

00:12:28

Later, Scott told us he thought technical experts would reassure Judge Sirica on the electronic problems that resulted in the two critical tapes being missing, and further, Scott

said he thought material on the tapes that are not missing. Where does Scott put it mean that John Dean's credibility would suffer?

00:12:48

A disastrous fall, Robert McCormick, NBC News.

00:12:53

The Senate Rules Committee for the first time in the nation's history today is taking up the matter of replacing a vice President of the United States. Gerald Ford had a detailed opening statement, including offers to make available all personal and political financial records. But Israeli premier gold of my year is meeting with President Nixon at this hour. After conferring this morning, he was Secretary of State.

00:13:13

Kissinger, Mrs. Mayer says that she's looking for answers to problems that have arisen out of her country's relationship with the United States. All was reported quiet on the Mideast ceasefire fronts today.

00:13:24

The Department of Agriculture for months now, the harbinger of bad news for consumers, said happily. Today that farm prices dropped by 4% in a period between mid-september and October, and that was for the second straight month. And the department hinted that those reductions will be reflected before too long in supermarket prices. And here's the story.

00:13:44

The Agriculture Department says the decline was prompted mainly by reduced prices for cattle, hogs, wheat boilers and eggs. The department added, however, that higher prices were paid for milk, rice, dried beans, oranges and grapefruit. As a group, meat animals declined 9% for the month. The Lower Raw farm product price usually foreshadows.

00:14:04

Changes in consumer prices last month, the sharp decline in farm prices from the mid August peak paved the way for a September downturn at the supermarket. The year's first hogs, for example, feeling a change in consumer purchasing practices, have dropped almost \$16.00 per 100 weight since the August high.

00:14:22

As for crops, the decline was less dramatic. Wheat was down \$0.40 per bushel, yet is up more than \$2.00 from the price paid a year ago. Administration spokesmen are predicting a further downward trend as farmers finish harvesting a bumper crop. Reports of a good Russian grain crop should ease the export demand on American grain and help the housewives food dollar go further at the supermarket.

The fuel shortage has reared its skimpy head on the world of air travel, causing United, American and Trans World Airlines to impose drastic cuts in flight schedules. As of today, and other carriers are expected to follow suit. Bob Jamieson reports.

00:15:04

The government wants airlines to consume no more fuel in the next year than they did in 1972.

00:15:11

As a first step, the Civil Aeronautics Board looked at cutting flights over routes where the airlines are in hot competition, so united, TWA and American got together at the suggestion of the CAB and came up with a compromise plan to cut their numbers of flights in and out of 20 different cities. That move will save.

00:15:29

60 million gallons of jet fuel alone in the six months beginning November 1st.

00:15:38

But that saving won't be enough. Every carrier in the country is looking at its schedule. Some are dropping flights unilaterally. Eastern has already announced a 5% cutback, and the airlines continue to worry about supply.

00:15:50

So if the winner is severe, the Middle East embargo on imports continues, there's any kind of a pipeline.

00:15:57

Breakdown or interruption. All these factors going in the same direction.

00:16:01

The answer is obvious that there will have to be further reduction in airline fuel use.

00:16:07

The weight reductions could be a welcome relief to the airlines facing economic problems. More passengers will be aboard each plane and by cutting flights in, answer to a fuel shortage, they are most likely avoiding any thought of antitrust action by the government, Bob Jamieson, NBC News, Chicago.

00:16:23

Well, it's been quite a while since little girls had to be made of sugar and spice and everything nice and the blue jeans, the sweatshirt and the baseball met long ago stopped belonging only to the boys in Denver. A Little League team is getting a taste of women's liberation, even though most of the league members don't even know yet what the word chauvinist means, much less how to spell it.

00:16:43

Here's the story.

00:16:47

More than 11,000 young boys participate in the Young America League football program in Denver. Now 110 year old girl wants to play, but the league says no. Carry Prebble #82 practices with the Park Hill Falcons. Her coaches say she has as much football ability as the 10 year old boys. When Kerry started practicing most of the.

00:17:07

Boys didn't know she was a girl until they spotted her long hair.

00:17:11

The Falcons want her to play, but when the game starts, Kerry has to stand on the sidelines. The league says she cannot play because she is a girl. Her family is fighting the ruling a formal complaint alleging sex discrimination has been filed with the state Civil Rights Commission. League officials say the entire case is ridiculous and that if young girls want to play football.

00:17:32

They ought to form their own league, the city of Denver is caught in the middle that provides the fields for the boys, football games and may be aiding the alleged discrimination.

00:17:41

One thing is known for sure, this year's football season will be over before the issue is settled. \*\*\*\* Fletcher, reporting from Denver.

00:17:52

'S wear daily and his baby sister. Are you ready for this?

00:18:00

And Mark, in an age where fashion magazines declare monthly that only skinny could be beautiful, W has even backed up its stand with a then now picture section of international beauties, showing them heavier and lighter and claiming that they'd all look better with a little more meat on their bones.

00:18:16

So to speak, the admonishments are primarily designed for women over 35, like these, shown Jackie Onassis, whose diet at her 5 foot 8 inch frame down to a size 6 and who, according to W, has wrinkles around the eyes to show for it. And Gloria Vanderbilt Cooper, who fasts five days a week to maintain her £95.

00:18:36

Praises more well padded beauties like Candace Berg and Princess Grace and Ingrid Bergman, all of whom the paper says face up to their bill.

00:18:43

And to put it in W sort of succinct words, after 35A lady has to choose between her face and her behind, and weave wear for the face. And so there. Now you can tackle that leftover Halloween candy without a qualm. In a minute, we're going to meet the most amazing artist.

00:19:06

I'm Jill kinmont. I'm a teacher, but 17 years ago that was the farthest thing from my mind. I was a champion skier and skiing was my whole life.

00:19:20

Two weeks before the 1955 Olympic Trials, I had an accident. It was a really bad fall.

00:19:31

Suddenly I had to live with the fact that I'd always be paralyzed from the shoulders down.

00:19:46

I found that the one thing a handicapped person needs most is acceptance. Unless you can accept us as human beings with feelings, with skills, with a sense of responsibility, then you're adding a handicap we can't overcome.

00:19:54

Alright.

00:20:00

Let's stop handicapping the handicapped.

00:20:05

There's a beautiful phrase that says very simply become what you are. Meaning, of course, to try and live up to our potential, something that most of us are never called upon to do. We slide through life, giving only as much as we have to, pushing ourselves only when we have to and never know. Therefore, what we might have been able to do or be or accomplish.

00:20:25

In Roseburg, OR there's a man born with a handicap that most other people would have found insurmountable. But that man has spent his life working to prove to the world and, more importantly, to prove to himself that the impossible is usually that way because we accept it. So here's the story of one man determined to become an artist, and he certainly.

00:20:50

Here are a few samples of Paul Smith's work spread out on his bed at the Rose Haven nursing home in Roseburg, OR.

00:20:57

A copy of the Mona Lisa.

00:21:01

A sketch of a plastic statue.

00:21:05

And the Last Supper, the works are acceptable by any standard. They're remarkable because they're done by a man who's incapable of holding a pencil.

00:21:15

A burst effect left Paul Smith with a handicap similar to cerebral palsy and the works you've seen were painstakingly done on a typewriter.

00:21:24

Bracing one hand with the other, Paul Smith strikes a single character that moves. The paper locks the carriage in position and strike.

00:21:32

Again.

00:21:34

A single stroke at a time. Careful realignment of the paper and other stroke.

00:21:39

And working two to three hours a day, Paul Smith turns out a drawing in two to three months.

00:21:46

Paul Smith uses just 9 characters in his drawings.

00:21:50

The straight lines of the wood mill are done with the underlying.

00:21:53

Key.

00:21:54

Periods and asterisks put foliage on the trees and the water is a series of carefully placed parentheses highlighted with the smudge of.

00:22:02

The ribbon.

00:22:04

With the best of his work, the characters blend together until even under magnification it's impossible to tell that this is typewriter.

00:22:10

Start.

00:22:17

It's slow work, of course, but Paul Smith says time is the thing he has most of.

00:22:25

From Roseburg, I'm John Tuttle.

00:22:28

And genius is, after all, 10% inspiration, 90% perspiration.

00:22:35

The National Horse Show opened Tuesday night at New York's Madison Square Garden, and the highlight of the evening was the international jumping event, NBC News reporter Tim Ryan has the story.

00:22:48

A national horse show opened last night at Madison Square Garden and the featured event was the international jumping competition with teams from the US, Britain, Canada and West Germany. The British team took the lead in the week long event with this ride by Harvey Smith, which captured the Democrat Challenge Trophy aboard Salvador Smith had a faultless performance in the fastest time.

00:23:09

British riders also won second and 5th places for a total of 22 point.

00:23:13

Young Mack Cohen was the top US rider in last night's event on his horse Triple Crown. Coin finished third, while Team Captain Frank Chapeau was fourth, giving the American 6 points in 3rd place in the team standings. Conn's horse favored his right hind leg but still made every jump cleanly in the final round with a time good enough.

00:23:33

For the third place finish.

00:23:37

The team events continue each night, culminating in the Pre de Nacion next Tuesday night.

00:23:44

Cohen and the American riders are expected to be among the top finishers by then. Tim Ryan, NBC News.

Lexington's tallest downtown building, the 15 story first Security, National Bank and Trust Company, was officially opened today with ribbon cutting ceremonies. A Lafayette High School ROTC officially opened the ceremonies with flag raising on Walnut Street just off main and the multimillion dollar bank and office.

00:26:48

Complex was officially.

00:26:50

Open among those in the program were ha Kinkel, the chaplain of First Security, Lexington Mayor Foster Pettit, Fayette County Judge Bob Stephens, City manager Harry Sykes, Walter Helen Meyer, junior president of First Security Edward Dabney, honorary chairman of the Board of Directors and the Roy Miles, chairman of the Board of directors.

00:27:11

The structure tower is 206 feet above the city block. It occupies. First, security is bounded by east main Walnut E Short and the Esplanade ground breaking for the building was held in April 1972 and 19 months later, Lexington's tallest downtown structure is opened and the ribbon cutting was in high finances.

00:27:31

\$100 bills were used as the ribbon president Helen Meyer reminded those handling the scissors to cut on the seams of the \$100 bills, which they did in his remarks. City manager Harry Sykes had these additional comments.

00:27:46

Very, very pleased and fortunate to have this kind of structure come to us at the center of our town. We need a viable downtown in order to reach out to the greater community and sooner people realize this and stop fighting and talking about doing something downtown that.

00:28:05

Is not being done for risk community, this is.

00:28:08

Relatives of some servicemen still unaccounted for in Indochina have heard an allegation that this country isn't doing enough.

00:29:12

To find them, the director of operations for Voices and Vital America, Steve Frank, took this position in a Louisville speech last night. Frank said that during a trip to Southeast Asia, he found no substantial evidence that Americans are still held prisoner. But he said that he gathered information that led him to believe some of the men are still alive.

00:29:32

Well, Kentucky voters go to the polls tomorrow to decide on 8 of the 38 seats in the state Senate and 54 of the 100 in the.

00:29:39

Here in Lexington and Fayette County, voters will be casting their choice for the first time for the very first mayor of the New City County merge government and the Councilman representing districts in that merger, 1 Councilman from each of the 12 districts, will be chosen. Their two candidates running for each of those seats and three Councilman at large from a field of six candidates. They're county judge at county.

00:29:59

Attorney and Commonwealth attorney seats are also at stake. While these races have received the bulk of the voter attention, it should be remembered that there's also an important city election.

00:30:08

In state, the Court of Appeals has yet to rule the city County government merger is legal and should have decided that it's not. It will be the city commissioners and the city police judge chosen in tomorrow's election, who will help conduct community business 3 candidates are running unopposed in the city Commission race. They are Fred Fugazzi, William C Jacobs and Fred Keller. There are two candidates pitted against each other in the race.

00:30:30

Police judge of the city voters that down that ticket will choose either between Harold G Sloan or Dudley Webb. Secretary of State Henry Kissinger headed off on a tour of Arab cities today, his first stop on this difficult mission to break the impasse between Israel and the Arabs will be Morocco.

His trip comes amid warnings from both sides that fighting may be renewed at any time. Israeli premier gold.

00:32:10

Fair back in Tel Aviv after meetings last week with President Nixon, is indicating that her trip did not resolve all the differences of opinion between her country and the Nixon administration.

00:32:22

The Washington Post today reported that Ohio Senator William Saxby, President Nixon's choice for attorney General, said in his speech to the Hong Kong Chamber of Commerce just last August that Mister Nixon ought to destroy the Watergate tapes if, in Saxby's words, and I quote here, they are incriminating, according to the post, saxby then added.

00:32:42

And I'm sure he will. The speech containing those alleged remarks was tape recorded at the time it was made transcribed and the tape then erased for reuse.

00:32:53

The President of the Hong Kong Chamber of Commerce, Herbert Minchin, said the post report seems accurate. Saxby himself says he can't recall the incident or the remarks.

00:33:04

President Nixon, meantime, remains in seclusion today at his home in Key Biscayne, FL, where even the sparkling sunshine can't lift the gloom surrounding the weekend of hush conferences with top White House adviser, someone from Washington. Despite the growing rumors and rumbles of resignation, Nixon aide spent most of their weekend repeating that the president has absolutely no intention of stepping down.

00:33:25

And for more, here's NBC's Russ Ward from Key Biscayne.

00:33:31

It has been a tedious year for the President, the biggest political victory of his career has eroded in the past 12 months, to the point where only one in every four persons question in the latest Gallup poll, approves of the way he's doing his job, one in every three, according to Gallup, feels he should be impeached.

00:33:51

In the past year, the Vice President has resigned under a cloud of wrongdoing. Two former cabinet members under indictment Congress has before it a basketful of impeachment resolutions.

00:34:03

And the Watergate affair, rather than fading away, becomes more involved with each new day's disclosure.

00:34:10

The president is in the uncomfortable position.

00:34:13

Of having members of his own parties suggest that resignation may be the only way out, White House credibility has slipped so badly that even in the time of crisis in the Middle East, Mr. Nixon is suspected by some of having called a national military alert to divert public attention.

00:34:32

The President comes here to get away from the pressures of Washington, but the quiet tranquilizing effect of this surf and these palms was accompanied this weekend by repeated questions put to press spokesman Gerald Warren about the non existent Watergate tapes.

00:34:48

The isolation of the president's compound here gives only temporary relief from a clamor that has reached even the bumper sticker stage. Honk if you want impeachment.

00:35:00

This is Ross Ward, NBC News, with the presidential party at Key Biscayne.

00:35:04

The man hailed as the world's top oddsmaker Jimmy the Greek of Las Vegas, has reportedly joined that guessing game of who's going to live in the White House, giving 1000 to one odds against impeachment and 500 to one against Mr. Nixon, resigning meantime for the nations most influential, newspapers have now called for the president to step down. The New York Times.

00:35:25

The Denver press, The Detroit News and the Atlanta Journal. Those last three named have supported Mr. Nixon strongly in the past, and for the first time in 50 years, Time magazine has printed an editorial in this week's issue, saying that President Nixon, having lost his ability to govern effectively, should resign.

00:35:41

Over the weekend, Senator Edward Brooke of Massachusetts became the first Republican congressman to call for the resignation. But in influential Democrat Senator Howard Cannon of Nevada, a member of the Rules Committee that is holding confirmation hearings for vice presidential designate, Gerald Warren opposed the resignation.

00:36:01

At least at this time, here's part of what Brooke appearing on, Abcs issues and answers and Cannon on CBS Face the Nation had to say the nightmare.

00:36:11

And I know that he doesn't want to hurt the country, and I certainly don't want to prejudge the case. He may not be guilty of any impeachable offense. On the other hand, there is no question that President Nixon has lost his effectiveness as the leader of this country, primarily because.

00:36:31

He has lost the confidence of the people of the country and I think therefore that in the interest of this nation that he loves.

00:36:40

Of that, he should step down, should attend his resignation.

00:36:45

I would say that as of this very moment, I do not think that he should resign. I think our country has been torn apart very badly up to the present time, and I think that there is still a chance for Mr. Nixon to reestablish himself and and reestablish our country in a better light.

00:37:05

And I'd like to see some steps taken along those lines, and if that does not occur.

00:37:11

It's getting to the point now where we almost hate to listen to the news because of something new that might have occurred and and if we continue to have new disclosures as time goes on that that destroy or damage the credibility of the executive branch, then at some time in the future I would be prepared to change.

00:37:32

My mind.

00:37:33

New York City, where living is regarded as hard even when things are going right as having labor pains. Today, 30,000 technical service and maintenance workers walked off their jobs at 48 different hospitals to protest wages and nearly 11,000 city firemen are also threatening to strike some time today. Mayor John Lindsay has now personally intervened in that dispute.

00:37:53

The city over a new contract and Transworld Airlines today had to cancel all domestic flights after flight attendants struck in New Mexico. The National Guard is searching again today for the body of a man who was sucked out of the window of a plane over the weekend in a freak accident and.

00:38:08

Here's the story.

00:38:12

An engine failure apparently shattered a cabin window on a national airlines DC-10 at 39,000 feet over New Mexico Saturday night. One man was sucked out the window when the airplane underwent decompression about 15 minutes later. The three engine jumbo jet made an emergency landing at the Albuquerque airport. Loose spawn was sitting just in front of the passenger.

00:38:32

It was sucked out.

00:38:33

And there was this terrific explosion. And I say explosion, you know, a big boom or loud noise.

00:38:41

In the cabin, we could hear this terrific whooshing sound behind us and.

00:38:47

At this time, I didn't even know the motor had gone. I just thought a.

00:38:50

Window had.

00:38:51

Popped and I looked around and there's a.

00:38:55

Men's feet and.

00:38:58

Still caught in a seat belt. So I tried to get around this seat and of course, by this time the plane has started to.

00:39:05

They were declining rapidly. He had it under control, but declining rapidly. I couldn't get around that way. My seat belt was hooked and I was having so fast I could, so I tried to go over the seat, but this time I come around it.

In South Vietnam, the Communists have reportedly seized 2 very important outposts. After two days of the fiercest fighting since the ceasefire went into effect back last January, most of the 300 South Vietnamese soldiers who tried to hold off the enemy are reported dead or captured in Laos, the last remaining.

00:40:20

American being held prisoner by the communist Pathet Lao was introduced to foreign newsmen and allowed to answer questions, although his answers had the ring of being well rehearsed.

00:40:31

The prisoner was brought before newsmen and a bamboo Grove lighted by oil lamps at Sam Noah, Laos, close to the North Vietnamese board.

00:40:40

He identified himself as James Emmett K Senior of Honolulu HI, aged 46.

00:40:47

Looking reasonably relaxed, Kay chatted with the news men, mostly from Communist blocked nations, for almost an hour.

00:40:55

He said he was flying for Continental air services out of Vientiane, Laos, when shot down last May 7.

00:41:02

Kaye's responses to questions appeared to have been rehearsed. He praised his captors and criticized the US government and President Nixon.

00:41:11

He said he was getting letters and packages from his wife in Honolulu and that he hoped to be released soon. John Rich, NBC News Tokyo.

00:41:19

Well, Provo week. Now the residents of Stevens Point WI have been bursting their buttons with pride, and many of them are having that same sort of portly problem with their belts too. It all began when a panel of beer tasting experts sip some unidentified samples and flatly pronounced Stevens Point owned local brew, the second best beer in the world. Well, that was last week since then.

00:41:40

The beer sales have soared and the waistlines have spread as a result of all the celebrating. And here is a special report from that gloriously proud town.

00:41:52

Point special is truly a local beer. It's brewed in Stevens Point and distribution is limited to the immediate area.

00:41:59

All points special is brewed in one kettle. The Brew Master estimates a big brewery could produce a year's supply of points and about four hours point special is modestly priced about \$1.10 a six.

00:42:10

Pack.

00:42:11

So when Chicago newspaper columnist Mike Royko announced point special 52nd in a tasting contest with 22 of the world's best brews.

00:42:20

The town of Stevens Point was proud.

00:42:22

Code.

00:42:23

Point special sales have increased 10% since the announcement. Stephens Point is a college town and the students consume a lot of points. Special. One of their favorite watering holes is Gerty, and raised tap down on the town square. Students rub mugs with seasoned beer drinking natives down here.

00:42:41

I like it very much and.

00:42:43

I don't know. Beer tasters all have their own mind, I guess, but I was.

00:42:50

I wouldn't put it as second, no.

00:42:52

Since the article came out, there were a lot of people, a lot of my friends. Now that knew I went to point and they were all asking me to bring some home and how they'd like to.

00:43:00

Taste it after they read that article.

00:43:02

I got.

00:43:03

15 years old. I drink and stupid swine beer.

00:43:06

Think you'll ever.

00:43:07

Stop. I'm not stopping.

00:43:12

The Hostess at Guardian Reyes says the demand for points special on TAP has increased 400% since the Reiko contest, and the latest slogan around here has a familiar ring. It is when you're out of point, you're.

The YMCA is the young Men's Christian organization devoted to helping young men such as we have here today. We conduct day camps, volleyball, swim classes, all during the year, and this would not be possible without the help of the United Way. And thanks to you, Lexington, it's working.

00:44:08

Support the why and the many other services of United Way give your full share.

00:44:13

I'm Al Brooks, candidate for Fayette County judge.

00:44:16

My opponent claims that he has built a new jail for Fayette County without raising taxes. The truth is he has only approved plans for a new jail. He has provided no way to pay for it. He's leaving that problem for the new metro government. If he had built the jail four years ago as promised.

00:44:35

He could have saved us \$2,000,000. I won't make promises I don't intend to keep both for me. Al Brooks on November 6.

00:44:46

Well, from the moment that man gives his first hungry post, nayel and the bottles jammed into his mouth, he's off on a life long race to stuff his face. Enormous amounts of a human
